## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

2. The information disclosure statement filed on September 22, 2006 has been received and the references listed thereon have been considered.

### ***Claim Rejections - 35 USC § 112***

3. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, lines 2-3, the claimed angle is vague and indefinite since it is set forth in terms of inches rather than degrees or the like.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3724

5. Claims 1-6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Murran, pn 1,115,328.

Murran discloses a shaving apparatus with every structural limitation of the claimed invention including cooperating cutting members as shown in Figure 3.

6. Claims 1-6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Hanley, pn 2,077,367.

Hanley discloses a shaving apparatus with every structural limitation of the claimed invention including cooperating cutting members as shown in the figures, for example Figure 7a.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murran, pn 1,115,328 and Hanley, pn 2,077,367, each taken separately.

Murran and Hanley each discloses a shaving apparatus with almost every structural limitation of the claimed invention but lacks the specific stroke characteristics. However, it would have been obvious to one having ordinary skill in the art to modify Murran and Hanley such that it is of a size and configuration that would fall within the claimed stroke characteristics to gain various well known benefits including performing

Art Unit: 3724

cutting operations on the desired scale of workpiece and/or attaining desired cutting characteristics therefor.

### ***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
